## EXPERIENCE

### **Jr. UI/UX Designer** - iVari Security Systems Pvt. Ltd, (May 2024 - Present)

- Designed user-friendly web and mobile experiences aligned with the company's brand identity.
- Led the redesign of the company website and internal systems for better usability and modern design.
- Created high-fidelity designs in Figma and translated them into functional, responsive interfaces.
- Worked with cross-functional teams to ensure smooth delivery of designs and their implementation.

### **Designer trainee** - Designers Academy, (Oct 2023 – Mar 2024)

- Learned UI/UX design basics through practical projects and regular mentorship sessions.
- Gained skills in creating wireframes, prototypes, and design systems for diverse applications.
- Improved understanding of user research, usability testing, and creating designs focused on user needs.

### **Front-end developer** - Hamdan InfoCom, (Oct 2022 – Nov 2022)

- Developed interactive and responsive web interfaces using HTML, CSS, JavaScript, and Bootstrap.
- Improved client-facing applications by enhancing usability, accessibility, and design consistency.
- Worked with teams to create cross-browser-compatible and mobile-friendly web solutions.

---

## PROFESSIONAL SUMMARY

- Experience in designing user-centric web and mobile interfaces using Figma.
- Expertise in front-end development using React.js, HTML, CSS, and JavaScript.
- Skilled in creating wireframes, prototypes, and responsive design systems.
- Proficient in delivering high-fidelity designs aligned with modern branding and usability standards.
- Developed scalable front-end components ensuring responsiveness across devices.
- Hands-on experience with tools like Vercel, Figma, Spline, and Framer for deployment and design enhancements.
- Delivered solutions involving complex dashboards, HR systems, and e-commerce websites.
- Strong foundation in UI/UX principles, user research, and usability testing.
- Documentation: Contribute to internal knowledge sharing by documenting processes and best practices.

# PROJECTS

## iVari Security Systems Website Revamp –

Revamped iVari Security Systems' website to enhance usability, align with the brand, and deliver a responsive experience across devices.

### Key Contributions:

- Redesigned the company website to improve usability and align with the brand's modern identity.
- Created high-fidelity designs in **Figma**, focusing on a seamless user experience for both desktop and mobile.
- Developed the front-end using **React.js**, ensuring component reusability and responsiveness.
- Deployed the website on **Vercel**, optimizing for performance and fast loading speeds.

### Outcome:

Delivered a modern and user-friendly website that improved user engagement and strengthened the company's digital presence.

## iVari HRMS –

Developed a Human Resource Management System (HRMS) to streamline employee and administrative processes, enhancing operational efficiency.

### Key Contributions:

- Designed employee and admin dashboards in Figma, focusing on intuitive navigation and seamless workflows.
- Integrated features for employees to mark attendance, apply for leave, update sales data, and download documents such as salary slips, incentive slips, and holiday lists.
- Built the admin dashboard to review employee updates, manage records, and upload important documents.
- Developed the front-end using **HTML**, **CSS**, and **JavaScript**, ensuring responsiveness and a user-friendly interface.

### Outcome:

Delivered a comprehensive and user-friendly HRMS solution that simplified daily tasks and improved communication between employees and administrators.

## Stone Paper –

Designed the digital identity and website for StonePaper, a premium clothing brand, emphasizing minimalism and luxury.

### Key Contributions:

- Created branding elements, including the logo, to align with the brand's ethos of sustainability and elegance.
- Designed high-fidelity mockups in **Figma**, focusing on clean layouts, intuitive navigation, and a luxurious aesthetic for desktop and mobile.
- Developed the front-end using **React.js**, implementing reusable components and responsive designs.

### Outcome:

A premium website that effectively communicated the brand's values and showcased its products in a visually appealing manner. *(Full designs not shareable due to NDA.)*

## Getmyjobs.in –

Designed and developed a job portal connecting job seekers and recruiters, simplifying the hiring process for both user groups.

### Key Contributions:

- Designed distinct workflows and interfaces in Figma for job seekers and recruiters, ensuring accessibility and ease of use.
- Created wireframes and prototypes for streamlined job postings, applications, and recruiter interactions.
- Developed the front-end using HTML, CSS, and JavaScript, ensuring **responsiveness** and **cross-browser compatibility**.

### Outcome:

Delivered an intuitive and functional job portal that bridged the gap between job seekers and recruiters. *(Full designs not shareable due to NDA.)*
